The screenshot shows the AbeBooks.com homepage. At the top, there's a navigation bar with 'Advanced Search', 'Browse', 'Bookazines', 'Community', and 'Sell Books'. Below that is a search bar with fields for 'Author', 'Title', 'Keyword', and 'ISBN'. To the left, there's a sidebar with 'Most Popular Subjects' and 'Browse All Subjects'. The main content area features several promotional banners and lists of books, including 'Collecting Travel Guides', 'New & Used Textbooks', 'Books: A Memoir', and 'When You Are Enrolled in Flames'. The right sidebar has 'The Avid Reader' sign-up form and 'More on AbeBooks' section.

## Abe Books

Nobody should waste energy searching for good books when they could spend that time reading them. Abe is a comprehensive search engine for used, rare, and out of print books. Users can search by title, keyword, or ISBN number and select by edition, seller, country of origin, and many other options. The site is very user friendly and rates sellers by stars, much like eBay. If you've got a title you've been searching for, check Abe first; you just might get lucky.
