ORACLE
e-businesssuite

VICTORIA, B.C., June 20 — [Abebooks](#), the on-line source for used, rare, and out-of-print books, has launched a new service for booksellers to manage listings on eBay. The service, created in response to Abebooks' community of 11,000 independent booksellers who wanted an easier way to list books in fixed price and auction environments without having to maintain separate databases, includes preparation, uploading, monitoring and management of eBay book listings. The service is expected to result in an increased selection of collectible books on eBay.
